ADDRESS (or surgery stamp)	
PREFERRED CONTACT DETAILS	

PLEASE ATTACH CURRENT MEDICATION LIST, THANK YOU.

Service notes and FAQs:	
When will my patient be seen?	The assessor visits to conduct assessments approximately once a month. The client is offered a date once their application form (downloadable from www.guernseydriveability.org.gg), their fee, (shown on the form) and a medical referral have been received.
What happens if the patient's driving licence expires before the appointment?	We have special arrangements for licence cover for assessments if the patient's licence expires before being seen but they must have a current valid reapplication on DVL's system.
How soon will I receive copy of the assessment report?	You will receive a copy of the patient's assessment report within two weeks of the assessment date.
Fees	The price we charge the patient is only for the assessment service and is calculated on a non profit basis. The patient is responsible for any fees connected with preparation of this referral.
